What is BNI®?

Word of mouth networking is the most cost effective form of advertizing possible. **Business Network International** (BNI) provides a structured and supportive system of giving and receiving business. It does so by providing an environment in which you develop personal relationships with dozens of other qualified business professionals. This gives you the opportunity to substantially increase your business.

Belonging to BNI is like having dozens of sales people working for you. All members carry several copies of your business cards around with them. When they meet someone who could use your product or service, they hand your card out and recommend your services. It's as simple as that! It's simple because it's based on the proven concept and BNI's belief that **"Givers Gain."** If I help you, you'll help me and we will both benefit.

We meet weekly for 90 minutes. The purpose of meeting weekly is that it is impossible to refer business for someone you don't know. The only way we can gain confidence and build trust with our fellow members is to spend time together every week, to become better educated on what we all do, and to learn what a good referral is for each of us. We also encourage our members to meet outside of this forum, creating another opportunity to get to know one another a little better.
